

Solidarity Statement with Tunisian Workers Strike Call

Thursday 13 December 2012, by [AWP](#) (Date first published: 11 December 2012).

Awami Workers Party Pakistan Strongly condemns the Islamist militias attack on the national headquarters of UGTT (Tunisian General Labour Union). We have very serious concerns that this militias force is working under the ruling Ennadha party.

UGTT Tunisian General Labour Union struggle for the rights of workers, women and youth are on right path, no one can capture this struggle through militias force. Ennadha party should immediately stop these anti workers policies and take action against those militant people who are responsible of the attacks on national headquarters of UGTT.

Awami Workers Party expresses its deepest solidarity with the general strike of Thursday, 13 December 2012. We are with the struggle of UGTT for the broader interest of the working class of Tunisia. We always try to extend our support toward the international struggle of working class against exploitative capitalist system. Awami Workers Party hands in hands with its brothers and sisters internationally will oppose any such oppression and continue its struggle against capitalism, imperialism and religious fundamentalism.
