

Appeal Greece/Europe: No to austerity! Yes to democracy!

Tuesday 30 June 2015, by [Alter Summit](#), [Petition / Sign-on Letter](#) (Date first published: 30 June 2015).

Europe is at a crossroads. The institutions of the Troika are not only trying to destroy Greece; they are trying to destroy us all. Now is the time to raise our voices against this blackmail by the European elites.

Next Sunday the Greek people will be able to vote to reject the blackmail that is austerity and vote for dignity – with hope for another Europe. This historic moment requires everyone in Europe to speak up and take a stand.

We all say NO to austerity, pension cuts, and VAT increases; We all say NO to poverty and privileges; We all say NO to blackmailing and to the dismantling of social rights; We all say NO to fear and the destruction of democracy.

We all say YES to dignity, sovereignty, democracy, and solidarity with the citizens of Greece.

This is not a conflict between Greece and Europe. It is about two antagonist visions of Europe: □our Europe of solidarity and democracy, created from below and without closed borders; □and their vision, which denies social justice, dismantles democracy, opposes the protection of the weakest and the taxation of the wealthy.

Basta ! Enough ! Another Europe is possible !
