They asked the government necessary steps to the official policy strategy that persuade the religious fundamentalists to do such heinous atrocities on women.

Rafi was a twenty year old girl and a candidate of Alim Examination (Equivalent to Higher Secondary Certificate) . She was raped by her college principal on 27 March 2019. She filed case with police station for justice. Consequentially the principal unleashed his paid miscreants either to realize her acknowledgement saying she had not been raped and would withdraw the case or if not she would be killed. The four miscreants called in her to the roof of the three storied school building and killed her setting kerosene fire on her body when failed to get any false statement. At present the principal is in the prison and miscreants were arrested. These two miscreants made confessional statement to the legal court.
