

# Financial Report from Bangladesh on ESSF funded activities in 2018

Wednesday 21 April 2021, by [BAS](#), [BKF](#), [BKS](#) (Date first published: 31 December 2018).

**2018 was a very crucial and challenging year for the Bangladesh Krishok Federation and its allied organizations, Bangladesh Kishani Sabha and Bangladesh Adivasi Samity.**

Among other things, we had **three major events** in 2018.

- The first is the **Landless Char [fallow lands] Conference** in southern Bangladesh where we have a massive land occupation.
- The second is the **land occupation action in Barisal District**.
- The third is **the election to the Upazila of Shamsunnahar Doli Khan** who is the president of Bangladesh Kishani Sabha. She was elected as the female vice president, winning by landslide victory.

In 2018, we had also to face a serious smear campaign. In response to the progressive successes of the land occupation movement initiated by BKF and its allies, the establishment, on this occasion, tried to harm and disorient our organizations and their members. We had to overcome this situation through mass communication, mobilization, correspondence, etc. We also had to organize many meetings at the grassroots level to make our members understand the wrong motivation of the local establishments that were against the interests of the landless.

Today, the situation is under control, although they sometimes try to disrupt our activities.

We thank ESSF and all the donors for the help we have received during this both successful and difficult year,

Badrul Alam  
President  
Krishok Federation of Bangladesh

---
