Gaza: Stop the Massacre of the Palestinian People!

Tuesday 30 December 2008, by [Collective / Multiple signers](#) (Date first published: 28 December 2008).

One and a half million of people, besieged, starved, bombarded for 18 months, this is a collective punishment and thus, a war crime according to the fourth Geneva Convention (art. 33 bis).

One and a half million of people who undergo an aggression of an unprecedented violence, this is again a war crime!

The European Union gave Israel its approval to commit this crime when it decided the upgrading of the EU-Israel relations.

We, member organizations of the National Collective for a just and long-lasting peace between Palestinians and Israelis, signatories of this appeal demand:

- the end of the massacre
- the immediate and total end of the blockade
- the suspension of all the association agreements between the EU and Israel sanctions against Israel
- the protection of Gaza's population and of the entire palestinian people

We call for a demonstration on Tuesday, December 30th, 2008 at 6 pm from Montparnasse to the Ministry of Foreign Affairs and on Saturday, January 2nd, 2008 at 5 pm (place to be confirmed)
