Petition

Justice for Victims of Agent Orange

Monday 2 May 2005, by [VAVAO](#) (Date first published: 2 May 2005).

To: The U.S. President and others

AGENT ORANGE, THE CHEMICAL, has killed, is still killing, and causing great suffering to over three million people in Vietnam.

PLEASE HELP THEM BY SIGNING THIS PETITION.

We welcome and support the Civil Action brought by the Vietnam Association of Victims of Agent Orange/Dioxin, and three Vietnamese victims. The documents have been submitted to a court in New York, on behalf of all affected by the chemicals used by the American Forces in their War on Vietnam.

This will be the first ever such action by Vietnamese victims of Agent Orange in any court of law.

We call upon the U.S. President, Government and the Chemical Companies named as defendants in the documents, to accept their responsibilities for the damage caused by their actions and products, and to pay full compensation to the victims.

Sincerely,

The Undersigned
