

Egypte: The Solution to the Crisis

A call from the Coalition of the Youth of the Wrath Revolution

Tuesday 8 February 2011, by [Collective / Multiple signers](#) (Date first published: 6 February 2011).

The current crisis and turmoil can not go on. And after the people said their word the only way out of the current situation is the stepping down of Mubarak, the cause of all hardship that Egyptians endured throughout the past 30 years, the cause of the current paralysis of Egyptian economy, and the consequent suffering of many of the Egyptian people – especially those who depend on a daily wage. Also, he is inevitably responsible for the bloodshed that took place in the past few days through gangs of thugs, snipers, and security forces.

The stepping down of Mubarak is the first step towards a democratic system based on the abolition of emergency law and all freedom restrictive law, ensures the peaceful transfer of power, freedom to form political parties and syndicates, enabling all Egyptians to defend their interest in a decent life based on social justice, freedom and human dignity.
