

Afghan bombing: American imperialist act of barbarism

Labour Party Pakistan condemns bombing in Afghanistan

Tuesday 23 May 2006, by [LPP](#) (Date first published: 23 May 2006).

Labour Party Pakistan today condemns the bombing in Qandhar district of Afghan villages by American imperialist. "It is another act of barbarism by the American imperialist forces. It is done once again on the name of curbing terrorism while over 100 innocent Afghan villagers have become the target of this air attack" said Farooq Tariq and Nisar Shah, general secretary and chairperson of LPP in a joint press statement today issued in Lahore.

Labour Party leaders said that there is no justification of this ruthless bombing. Many children and women have become the victims of this brutal attack. The American imperialism has gone mad and after their failure in Iraq, they have now opened a new front to do the same dirty game as they did in Iraq.

LPP leaders were of the view that American imperialism can not repress the religious fundamentalists by such attack; on the contrary, it helps these neo fascist forces to grow further. Religious fundamentalism relies on such coward act of barbarism to strengthen their "anti imperialism demagogy". The price of such attack has been paid by the ordinary masses that are made to believe by these religious fanatics that they are fighting the imperialism. "It helps the fanatics" said the LPP leaders in the press statement. "It will not stop the re-Talibanisation of Afghanistan but it will further complicate things" they said.

"By opening a new front American imperialism has shown that they do not have any more trust on Musharaf regime in Pakistan to do this dirty job for them, they want to do it themselves and are ready to repeat what they have done in Iraq. The changing of governor in North West Frontier Province in Pakistan yesterday shows that Musharaf regime want to change its strategy to deal with the religious fundamentalists in the province. But American imperialism has done it on their own". Farooq Tariq and Nisar Shah said in the press statement.

Labour party Pakistan will take notice of this brutal attack and will call on all its members to protest against this attack and organize demonstration against the American imperialism.
