Friday 25 February 2022, by [Sotsialnyi Rukh \(Social Movement\) Ukraine](#) (Date first published: 24 February 2022).

**Ukraine suffered a direct attack of Russian imperialism. Volodymyr Putin ordered to violate the border of Ukraine and launch missile strikes on cities. The most important thing is about 10 civilians were killed in Odes region and Donbass. A civilian in the center of Ukraine was also killed from the shelling (city of Uman' Cherkasy region). Russian soldiers, aviation and armored technician attack Ukrainian forces in all border regions (Kharkiv, Chernihiv, Volyn region), and missiles fire cities even in western Ukraine (Ivano-Frankivsk). However, the defenders of Ukraine are currently resisting the invaders.**

The reason for this military operation is Putin's imperial ambitions. His power wishes to conquer the Ukrainian people who do not support an authoritarian dictatorship.

□ Due to these emergency circumstances, the authorities must nationalize strategic enterprises, as well as remove the property of billionaires to ensure the population has access to medicine, transport, housing, food. Therefore, the policy of the state should be aimed at ensuring the interests of the workers who are at the forefront.

We consider it necessary to join volunteer activities and organize mutual aid based on trade unions and other communities.

□ CALL ON the left around the world to go out and demand peace in Ukraine, imposing serious sanctions against the Russian economy (excluding SWIFT, arrest of oligarchs property), removing Russian troops and stopping the bombing of bridges, list nnya Ukrainian external debt.

It's time to fight for independence, life and free future!
