This will be an open space gathering all those men and women, from East, West, North and South who believe that global warming cannot be tackled with market solutions and neo-liberalism. We believe that solutions can only be found in fundamental changes in the way we produce, trade and consume.

The Solidarity Village for a Cool Planet will be a space for debates, peoples assemblies, conferences, self-organised workshops, cultural events, fiestas, symbolic events and informal gatherings.

The Village will be a meeting place but not a space for accommodation/camping.
